

Overview

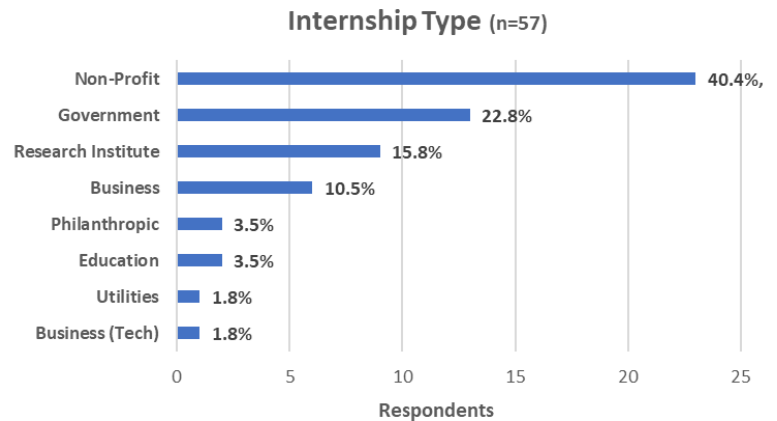

- 57/171 MPP students responded to survey regarding their 2021-2022 summer internship
- Students had from September 19, 2022-November 1, 2022 to complete the survey
- Sample size (n) varies for most charts because not all students answered every question

Key Findings

- 37% of respondents did not receive compensation from their internship
- Median hourly wage is \$22, the range is \$17.85 to \$90.00
- Median length of internship is 6 weeks, the range is 2 to 28 weeks
- 77% of respondents found internships in Los Angeles

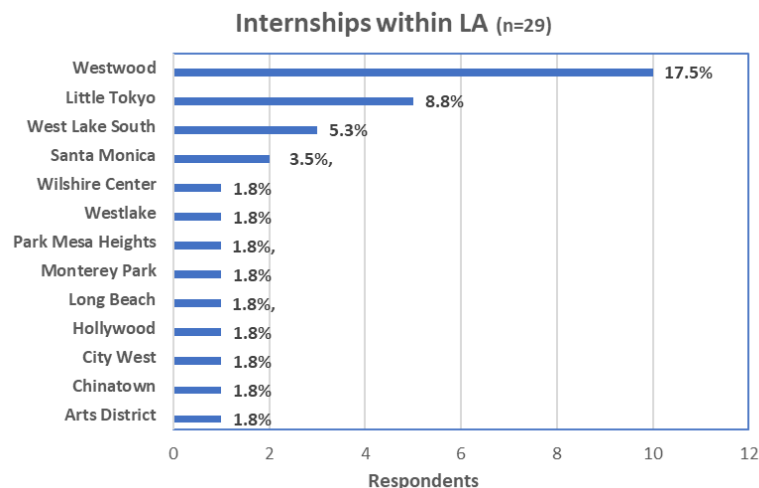

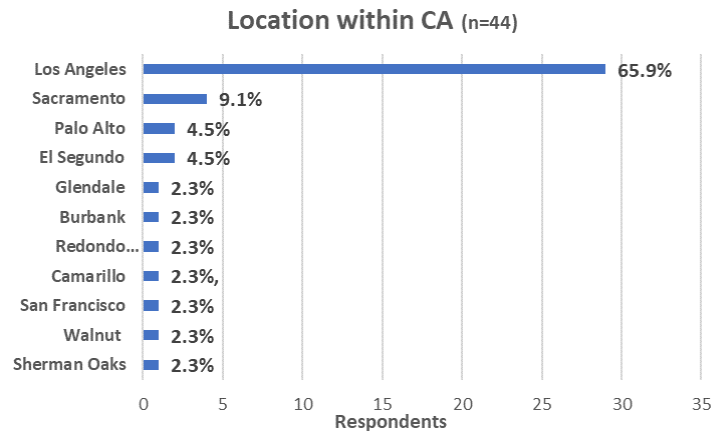

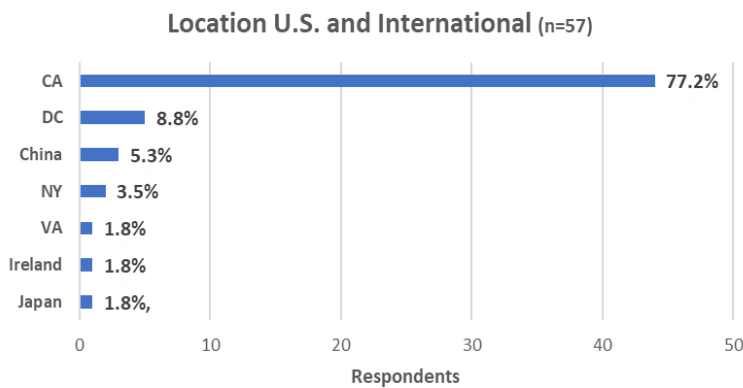

Type of Organization

- Vast majority of respondents found internships in non-profit or government sectors (63.2%)
- Over half of respondents interned at public entities (56%), and the remaining students interned at private (44%)

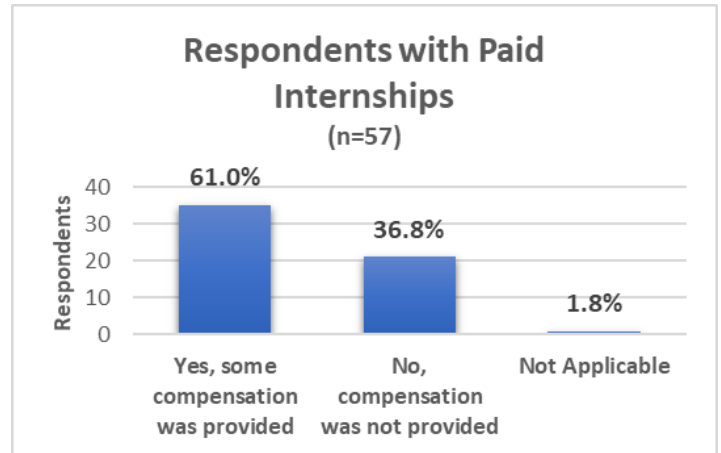

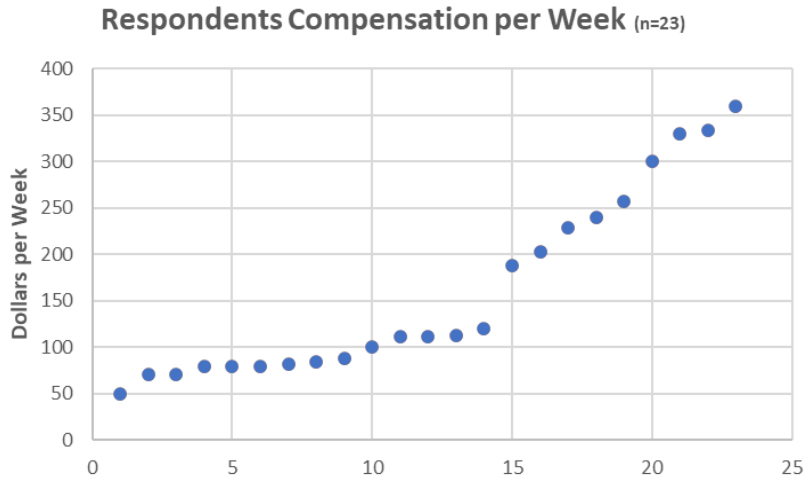

Location of Internships

- Majority of students interned within CA (77.2%) and of those, half interned within LA (50.88%)
- 26% of students interned at Westwood (UCLA) or Little Tokyo (City Hall)

Compensation

- Only 25/35 respondents reporting compensation disclosed their wage
- 21 respondents received \$0 compensation
- 25% of respondents earned \$82.56 or fewer per week
- 75% of respondents earned \$257.14 or fewer per week
- 12 respondents were paid hourly and 13 were paid a stipend

**Two respondents were outliers and were removed from the chart; respondents earned \$3,158.33 and \$1,290 per week, respectively.*

Length

- 25% of internships were 3 weeks or fewer
- 75% of internships were 10 weeks or fewer
- The range of internships was 2 to 28 weeks; median 6 weeks
- Several respondents had longer internships; it is assumed they transitioned to full-time positions
